

Use:

- Silicone nozzles designed for collection of exhaust gases on passenger cars, vans, trucks or any other vehicles

Characteristics:

- Made in SBR rubber
- Rubber nozzles: 250°C resistant at peak (220°C continuously)
- Equipped with vice grips to tighten onto the vehicle exhaust pipe
- Suitable to any exhaust pipe's thickness
- Optional automatic damper
- Excellent resistance to air, light, heat, cold acids, abrasion
- Poor resistance to flames
- Excellent elongation at break
- Good resilience and elasticity
- Good tensile strength

WARRANTY: 1 year
